The Civil War's greatest general as you've never seen him before, in a revealing collection of letters to his wife Julia introduced by Ron Chernow. Ulysses S. Grant is justly celebrated as the author of one of the finest military autobiographies ever written, yet many readers of his Personal Memoirs are unaware that during his army years Grant wrote hundreds of intimate and revealing letters to his wife, Julia Dent Grant. Presented with an introduction by acclaimed biographer Ron Chernow, My Dearest Julia collects more than eighty of these letters, beginning with their engagement in 1844 and ending with the Union victory in 1865. They record Grant's first experience under fire in Mexico ("There is no great sport in having bullets flying about one in every direction but I find they have less horror when among them than when in anticipation"), the aching homesickness that led him to resign from the peacetime army, and his rapid rise to high command during the Civil War. Often written in haste, sometimes within the sound of gunfire, his wartime letters vividly capture the immediacy and uncertainty of the conflict. Grant initially hoped for an early conclusion to the fighting, but then came to accept that the war would have no easy end. "The world has never seen so bloody or so protracted a battle as the one being fought," he wrote from Spotsylvania in 1864, "and I hope never will again." The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more. Praise for *Winning Grants Step by Step* "Warning: this book works. It provokes you to ask the right questions, hand-holds you through practical exercises, and offers a map that includes paths to develop strategic relationships with funders." E. Eduardo Romero, Nonprofit Roundtable "Winning Grants Step by Step is a very practical A-to-Z resource that speaks to the importance of staying focused on your mission every step of the way. The third edition is artfully updated with words of wisdom from grantmakers themselves, as well as updates on the latest processes and buzzwords all grantseekers need to know." Heather Iliff, Maryland Association of Nonprofit Organizations "With solid advice and clear examples, nonprofit leaders will find it a page turner!" Clarence Hauer, senior director, strategy and organizational development, St. Louis Nonprofit Services Consortium "Winning Grants Step by Step is a gift to nonprofit organizations. The valuable insights and

hands-on tools will instantly make any proposal more competitive." Alex Carter, Your Nonprofit Coach "Developing great grant proposals is essential for nonprofit leaders. Winning Grants Step by Step provides important guidance to those who are new to fundraising as well as to anyone who needs a refresher. This new edition of Winning Grants brings updated tips and vivid examples. As an experienced fundraising consultant, I believe it will help my clients and colleagues alike." Maria Gitin, CFRE, Maria Gitin & Associates "As an executive director, fundraising is on my mind every day. It's great to have a resource like Winning Grants Step by Step to use and share with my board, staff, and peers." Deborah Menkart, executive director, Teaching for Change Grantwriters often have little or no training in the practical task of grantseeking. Many feel intimidated by the act of writing, and some don't enjoy writing. In Storytelling for Grantseekers, Second Edition, Cheryl Clarke presents an organic approach to grantseeking, one that views the process through the lens of the pleasures and rewards of crafting a good story. Grantseekers who approach the process as one in which they are connecting with an audience (grantmakers) and writing a narrative (complete with settings, characters, antagonists and resolutions) find greater success with funders. The writing process becomes a rewarding way to tell the organization's tale, rather than a chore, and their passion and creativity lead to winning proposals. This book walks readers through all the main phases of the proposal, highlighting the creative elements that link components to each other and unify the entire proposal. The book contains resources on crafting an effective synopsis, overcoming grantwriter's block, packaging the story, and the best ways to approach the "short stories" (inquiry and cover letters) that support the larger proposal. Clarke also stresses the need to see proposal-writing as part of a larger grantseeking effort, one that emphasizes preparation, working with the entire development staff, and maintaining good relations with funders. In Storytelling for Grantseekers, new and experienced grantseekers alike will discover how to write and support successful proposals with humor and passion. New edition features: Overall updates as well as both refreshed and new examples Workshop exercises for using the storytelling approach New chapters on the application of the storytelling method to other fundraising communications like appeal letters and case statements, as well as the importance of site visits Example of a full narrative proposal NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • A deep and compassionate novel about a young man who returns to 1940s Cajun country to visit a black youth on death row for a crime he didn't commit. Together they come to understand the heroism of resisting. A "majestic, moving novel ... an instant classic, a book that will be read, discussed and taught beyond the rest of our lives" (Chicago Tribune), from the critically acclaimed author of A Gathering of Old Men and The Autobiography of Miss Jane

Pittman. *Grant Writing For Dummies*, 3rd Edition serves as a one-stop reference for readers who are new to the grant writing process or who have applied for grants in the past but had difficulties. This fully updated and revised edition of a classic guide to grant writing for health and human service professionals reflects the two major changes in the field: new NIH application processes and an increased emphasis on interprofessional and team approaches to science. New case examples reflect grant writing strategies for a great variety of health and human service professions, and the text includes an enhanced focus on online methods for organizing grant submissions. A new section on special considerations for submitting grants addresses specific types of research including community-based participatory research, mixed methods, behavioral intervention research, and dissertation and , mentorship proposals. The new chapter on common writing challenges and solutions provides examples of strong and weak statements and highlights the importance of writing with precision. Additionally, this new edition provides an expanded section on post-award requirements and links to NIH videos about grant writing. Written for individuals in both academic and practice

settings, the guide addresses, step-by-step, the fundamental principles for effectively securing funding. It is the only book to provide grant-writing information that encompasses many disciplines and to focus on building a research career with grant writing as a step-by-step process. It provides detailed, time-tested strategies for building an investigative team, highlights the challenges of collaboration, and describes how to determine the expertise needed for a team and the roles of co-investigators. The book addresses the needs of both novice and more experienced researchers. New to the Fourth Edition: Reflects recent changes to the field including an emphasis on interprofessional approaches to science and new NIH application processes Offers additional case examples relevant to social work, nursing, psychology, rehabilitation, and occupational, physical, and speech therapies Provides links to NIH websites containing videos on grant writing Includes chapter opener objectives Expands section on post-award requirements Focuses on electronic mechanisms for organizing grant submissions Here is a comprehensive guide to everything artists and arts groups need to know about supporting themselves through grants and special projects. Much more than a book on compiling grant proposals, *Grant Management: Funding for Public and Nonprofit Programs* presents grant writing in its broader organizational management framework. This text takes a comprehensive approach to external funding for public and nonprofit agencies. The book begins with an introduction to grants, their types, their history and their key characteristics to inform the next stage the search for funding. A key part of any management process, an entire chapter considers the purpose and approaches to evaluation that should be considered in conjunction with grant-funded programs. The book concludes with a chapter that considers the process in reverse how to go about distributing funds as a grant maker rather than a grant seeker. This text leads the reader through the technical steps of preparing an application, explaining the process used to make decisions, key aspects of grant management, and includes a summary of important factors directly pertaining to grant funds. Written from the perspective of community development, With information drawn from core theories and tools of public administration, *Grant Management: Funding for Public and Nonprofit Programs* addresses overarching theoretical issues for public management as well as offers an applied perspective of grant funding and management. This is an ideal text for students and public and nonprofit managers alike. Autograph letter signed. Seeks Grant's support in obtaining the position of Surgeon General. Grant writing skills are critical for researchers. According to author Betty Lai, a study of 92 institutions found that 67% listed grant-funding as a major criterion for promotion and tenure. Yet many scholars do not receive grant writing training. Addressing this need, *The Grant Writing Guide* is a concrete roadmap intended specifically for scholars for learning how to write fundable grants. This book walks

academic readers through steps to generate ideas, determine which grants help create in career advancement, find the right funder, and write in a way that excites reviewers and funders. Organized into 14 brief chapters, every chapter is designed to build grant-writing skills. Drawing from interviews with 100 grant writers, program officers, administrators, writers, and researchers in every phase of their career, the Grant Writing Guide lays out best practices, common questions, and pitfalls to avoid. Important topics covered will include finding available grants, generating ideas aligned with one's values, furthering one's career goals, creating effective pitches, talking to program officers, completing grant applications and structuring timelines, communicating clearly in prose and images, and soliciting feedback to strengthen your proposal. Chapters will open with stories from successful grant writers about the skill. Chapters will then describe and teach the skill. Chapters will end with an exercise designed to help researchers develop the skill. While this book is intended specifically for academics, Dr. Lai has strived to incorporate advice and examples that will resonate with women as well as scholars from non-traditional backgrounds. Conducting research requires resources to meet the research need. The resources in the research institutes/ centers are often inadequate, limiting the research outcome. Research grants help overcome those limitations and help the researchers carry out quality research without any restriction. Grant proposal writing is an essential skill to be mastered by every researcher. However, the majority of the medical schools, except the few research institutes, do not have a structured learning module for obtaining grants. On most occasions, the skill of writing grant proposals goes by self-learning. For students, it is burdening due to the tremendous time consumed to learn the craft of writing the grant proposal and the exhausting clinical and academic work. This book is carefully prepared to keep in mind the difficulties faced by the young researchers and the students concerning choosing a funding agency, grant makers' expectations, budgeting, surveillance and site visits, rights of the researcher and the funding agency, and ethical and legal aspects of obtaining the grant. The book also covers the alternate plan for partial funding or interruption of the financing, reporting the source of funding and acknowledgment, good clinical practice guidelines, and dealing with the rejected grant proposal. The research projects are often dropped or modified extensively due to the limited resources in the existing facility. The researchers are forced to compromise the research objective due to expensive requirements. There is a shortage of awareness regarding the availability of funding and grant for the conduct of research. Even if the researchers are aware of obtaining the financing, there is a lack of training in grant proposal writing, which is essential in getting the research funding. This book on grant proposal writing for medical and healthcare professionals covers such difficulties and deficiencies. It will provide complete companionship

from knowing the funding agency to obtaining the grant. *Guide to Effective Grant Writing: How to Write a Successful NIH Grant* is written to help the 100,000+ post-graduate students and professionals who need to write effective proposals for grants. There is little or no formal teaching about the process of writing grants for NIH, and many grant applications are rejected due to poor writing and weak formulation of ideas. Procuring grant funding is the central key to survival for any academic researcher in the biological sciences; thus, being able to write a proposal that effectively illustrates one's ideas is essential. Covering all aspects of the proposal process, from the most basic questions about form and style to the task of seeking funding, this volume offers clear advice backed up with excellent examples. Included are a number of specimen proposals to help shed light on the important issues surrounding the writing of proposals. The Guide is a clear, straight-forward, and reader-friendly tool. *Guide to Effective Grant Writing: How to Write a Successful NIH Grant* is based on Dr. Yang's extensive experience serving on NIH grant review panels; it covers the common mistakes and problems he routinely witnesses while reviewing grants. A path-breaking journey into the brain, showing how perception, thought, and action are products of "maps" etched into your gray matter--and how technology can use them to read your mind. In this book, you will learn about the different types of foundations, including private independent, corporate, family, and community, and how to identify a foundation to fund your project. You will learn how to qualify for grants; how to write a proposal; how to locate foundations in your subject area, geographic area, and that provide the support you need; and how to fill out a grant application. *How to Get Your Share of the 30-Plus Billion Dollars Being Offered by U.S. Foundations* will also teach you how to create an effective proposal by walking you through each section, including the cover letter, the executive summary, the statement of need, the goals and objectives, the specific and measurable outcomes, the assessment process, and the budget. You will even learn how to write letters of inquiry that will grab the foundation's attention. This book is filled with valuable information for organizations seeking funding from foundations. In addition to the list of directories and resources we have compiled, there are also insightful interviews with foundation officers and grant recipients, as well as sample proposals, letters, worksheets, and checklists. By using these tools and following the advice in this comprehensive guide, you will be able to find funding and achieve your organization's goals. A Simon & Schuster eBook. Simon & Schuster has a great book for every reader. Millions of people dream about making money as a freelance grant writer. But grant writing is different than any other type of writing; it requires specific elements as well as a certain style and know-how. By the nature of this series, this book is a clear, concise, and easy-to-follow guide. Covering the basic skills

every grant writer needs, they will learn how to get the funds they are asking for—no matter how stringent the submission guidelines. This book explains all a prospective grant writer needs to know, including how to: Find the money up for grabs Apply for government and foundation grants Build community collaborations and partnerships Write a statement of need Develop a budget and budget narrative Fill out appropriate paperwork This book gives writers the insider information they need to confront the competitive market and seal the deal. "This book is easy to read and understand. It is a great resource for individuals wishing to write grants. I have not seen another book that is this comprehensive and user-friendly." Score: 92, 4 Stars.--Michalene A. King, PhD, RN, CNE in Doody's Medical Reviews This fully updated and revised edition of a classic guide to grant writing for health and human service professionals reflects the two major changes in the field: new NIH application processes and an increased emphasis on interprofessional and team approaches to science.
