Listening well is an essential component of good leadership. You can become a more effective listener and leader by learning the skills of active listening. Working relationships become more solid, based on trust, respect, and honesty. Active listening is not an optional component of leadership; it is not a nicety to be used to make others feel good. It is, in fact, a critical component of the tasks facing today's leaders. The *Chronicles* are more than a history of ancient Israel under the ascent and rule of the Davidic dynasty. They are a story whose grand theme is hope. Great battles are fought, heroes and tyrants vie for power, Israel splits into rival kingdoms, and the soul of God's holy nation oscillates between faithlessness and revival. Yet above this tossing sea of human events, God's covenant promises reign untroubled and supreme. First and Second *Chronicles* are a narrative steeped in the best and worst of the human heart--but they are also a revelation of Yahweh at work, forwarding his purposes in the midst of fallible people. God has a plan to which he is committed. Today, as then, God redirects our vision from our circumstances in this turbulent world to the surety of his kingdom, and to himself as our source of confidence and peace. Exploring the links between the Bible and our own times, Andrew E. Hill shares perspectives on 1 and 2 *Chronicles* that reveal ageless truths for our twenty-first-century lives. Most Bible commentaries take us on a one-way trip from our world to the world of the Bible. But they leave us there, assuming that we can somehow make the return journey on our own. They focus on the original meaning of the passage but don't discuss its contemporary application. The information they offer is valuable--but the job is only half done The NIV Application Commentary Series helps bring both halves of the interpretive task together. This unique, award-winning series shows readers how to bring an ancient message into our postmodern context. It explains not only what the Bible meant but also

how it speaks powerfully today. 16 task-based units, each built around an engaging topic. Features various activities aimed at helping students build vocabulary, and listen-again activities provide additional skills practice. media, we shape our personal narratives. At parties, we talk over one another. So do our politicians. We're not listening. And no one is listening to us. Despite living in a world where technology allows constant digital communication and opportunities to connect, it seems no one is really listening or even knows how. And it's making us lonelier, more isolated, and less tolerant than ever before. A listener by trade, New York Times contributor Kate Murphy wanted to know how we got here. In this always illuminating and often humorous deep dive, Murphy explains why we're not listening, what it's doing to us, and how we can reverse the trend. She makes accessible the psychology, neuroscience, and sociology of listening while also introducing us to some of the best listeners out there (including a CIA agent, focus group moderator, bartender, radio producer, and top furniture salesman). Equal parts cultural observation, scientific exploration, and rousing call to action that's full of practical advice, *You're Not Listening* is to listening what Susan Cain's *Quiet* was to introversion. It's time to stop talking and start listening. One person talks; the other listens. It's so basic that we take it for granted.
