The peculiarity of material handling is that there are numerous technical solutions to any problem. The engineer's personal selection of the optimal solution is as critical as the technical component. Michael Rivkin, Ph.D., draws on his decades of experience in design, construction, upgrading, optimization, troubleshooting, and maintenance throughout the world, to highlight topics such as: • physical principles of various material handling systems; • considerations in selecting technically efficient and environmentally friendly equipment; • best practices in upgrading and optimizing existing bulk material handling facilities; • strategies to select proper equipment in the early phases of a new project. Filled with graphs, charts, and case studies, the book also includes bulleted summaries to help mechanical engineers without a special background in material handling find optimal solutions to everyday problems. 'Nations under God: The Geopolitics of Faith in the Twenty-First Century' is a timely contribution to the on-going discussion on religion and politics. The volume brings together over thirty leading scholars from a variety of disciplines such as political science, international relations theory, sociology, theology, anthropology, and geography. Utilising case studies, empirical investigations, and theoretical examinations, this book focuses on the complex roles that religions play in world affairs. It seeks to move beyond the simplistic narratives and overly impassioned polemics which swamp the discourse on the subject in the media, on the internet, and in popular nonfiction, by acting as a vessel for scholarly research on religion. The book presents a balanced analysis of the multifaceted roles taken on by religions, and religious actors, in global politics. Contributors: Stephen Dawson, Jodok Troy, Gertjan Dijkink, John A. FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations. Recipient of the Library Association's Outstanding Reference Work Award, this complete and comprehensive guide is the ultimate one-volume library for anyone interested in the outdoors. This monumental work features extensive coverage of: Fishing * Hunting * Firearms and shooting sports * Camping * Boating * First Aid * Archery and bowhunting * Sporting dogs * Fish species * Big game * Small game * Upland game and waterfowl * A complete listing of private organizations * Government information sources To broaden the scope of this established reference work, Vin T. Sparano, Editor Emeritus and Senior Field Editor of Outdoor Life, has compiled brand-new chapters and sections on survival, all-terrain vehicles, and watersports (including kayaking, water skiing, and personal watercraft). He also included new information on GPS (Global Positioning System) and increased focus on such sections as fly fishing, sporting clays, backpacking, nutrition, and new first-aid breakthroughs in outdoor emergencies. With nearly 400 new photographs and 100 drawings added to the already more than 1,300 illustrations, The Complete Outdoors Encyclopedia illustrates the newest technology and the latest trends in the outdoors. Representing decades of research and authoritative writing by Vin T. Sparano, this is the definitive guide that bridges all aspects of the outdoors today. It is a must-buy for anyone and everyone venturing outdoors. Beyond Pleased is a practical guide for new and existing entrepreneurs, on how to grow and sustain their business, after the start, through their most viable asset, the customer. This book teaches you how to learn more

about your customers to create a pattern of excellent service in your business. The customer experience goes beyond the transaction; it's about the cumulative experience your customers have when they interact with your business, what they think and feel, and what you can do to make it better. With this guide, you will learn: - How to get and use customer feedback to identify areas for improvement and make specific changes in your business. - The importance of employee training to give your staff the tools they need to carry excellent service through the entire customer experience. - Tips to recoup customer acquisition costs and cultivate a loyal customer base that will refer friends and colleagues. - How to correctly price your product and services for your target customer. In an era where prioritizing customer service is vital, any company that doesn't do so will crash and burn. Whenever a customer service issue arises, Beyond Pleas is like having a consultant on staff to train you on what to do. FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations. This collection is a resource for studying the history of the evolving technologies that have contributed to snowmobiles becoming cleaner and quieter machines. Papers address design for a snowmobile using the EPA test procedure and standard for off-road vehicles. Innovative technology solutions include: • Engine Design: improving the two-stroke, gas direct injection (GDI) engine • Applications of new muffler designs and a catalytic converter • Solving flex-fuel design and engine power problems The SAE International Clean Snowmobile Challenge (CSC) program is an engineering design competition. The program provides undergraduate and graduate students the opportunity to enhance their engineering design and project management skills by reengineering a snowmobile to reduce emissions and noise. The competition includes internal combustion engine categories that address both gasoline and diesel, as well as the zero emissions category in which range and draw bar performance are measured. The goal of the competition is designing a cleaner and quieter snowmobile. The competitors' modified snowmobiles are also expected to be cost-effective and comfortable for the operator to drive. FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations. "This practical and helpful volume details how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, Challenging Moments in Psychotherapy is essential reading for all clinicians, teachers, and supervisors of psychotherapy"-- FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations. An avalanche expert and predictor explores the often deadly nature of avalanches, sharing dramatic rescue and escape stories, including those of a skier who was forced to make a life-and-death decision and the race to save a buried victim. PW50 (1981-1983; 1985-1987; 1990-2002), PW80 (1983; 1985; 1991-2002), BW80 (1986-1988; 1990) Growing up at the end of the Great Depression, Dave Potter learned to appreciate the woods that surrounded his little town of Roxbury, Vermont. He was fly fishing by the time he was seven and lugging a camera with him at eleven. Intent on capturing all his great adventures, Dave was already well on his way to enjoying many fulfilling experiences in nature. In a collection of personal essays and poems inspired by nature, Dave provides a glimpse into what it was like to hunt out of an old deer camp, fly fish in a mountain stream, trout fish in a beaver pond, and catch a monster trophy fish after winning a battle in the water. Peppered with true-to-life colorful characters, his stories transport others through Vermont, Alaska, Maine, New York, and Quebec. Photographs vividly capture memories of good times as Dave highlights his greatest adventures in the northern woods and waters over the course of a lifetime. Bucktails and Fish Tails shares personal essays, poems, and photographs that track one man's seven-decade journey through life, fishing adventures, and the joys of nature.
