For courses in Automotive Steering, Suspension, and Alignment, and Automotive Chassis Systems. Today's automotive repair industry demands knowledge of diagnostic procedures and skill development as never before. Focusing primarily on problem diagnosis, this clear and concise text is packed with examples of practical technical information, ideas, tips, and detailed service

techniques. Troubleshooting and typical service problems are explored throughout. Halderman and Mitchell provide all essential material but weed out extraneous topics, and the text's real-world perspective reflects their extensive practical experience. This text covers both the theory and procedures related to the diagnosis and service of automotive suspension and steering systems, using a unique two-volume approach to optimize learning in both the classroom and the auto shop. The first volume (Classroom Manual) details the theory and application of suspension and steering systems, while the second (Shop Manual) covers real-world symptoms, diagnostics, and repair information. Known for its comprehensive coverage, accurate and up-to-date details, and abundant illustrations, the text is an ideal resource to prepare for success as an automotive technician or pursue ASE certification. Now updated with extensive information on new and emerging technology and techniques—including hybrid and electric vehicles, tire plus sizing, and computer-controlled suspensions—the Sixth Edition also aligns with area A4 of the ASE Education Foundation 2012 accreditation model, including job sheets correlated to specific AST and MAST tasks. Ideal for aspiring and active automotive professionals, **TODAY'S TECHNICIAN: AUTOMOTIVE SUSPENSION & STEERING SYSTEMS**, Sixth Edition, equips readers to confidently understand, diagnose, and repair suspension and steering systems in today ' s automobiles. Suspension and Steering Tasksheet Manual for NATEF Proficiency is designed to guide automotive students through the tasks necessary to meet National Automotive Technicians Education Foundation (NATEF) requirements for National Institute for Automotive Service Excellence (ASE) Standard 4: Suspension and Steering. Organized by ASE topic area, companion tasks are grouped together for more efficient completion and are clearly labeled with CDX and NATEF task numbers and the NATEF priority level to help students easily manage responsibilities. This manual will assist students in demonstrating hands-on performance of the skills necessary for initial training in the automotive specialty area of suspension and steering. It can also serve as a personal portfolio of documented experience for prospective employment. Used in conjunction with CDX Automotive, students will demonstrate proficiency in suspension and steering fundamentals, diagnosis, service, and repair. This two-part, eight-tape series uses live action video and professional-

quality animations to introduce viewers to automotive suspension and steering basics. Whether used independently, or as a supplement to any automotive technology book, each 20-minute tape guides viewers to a more complete understanding of important theory as well as the diagnosis, troubleshooting, and repair procedures used by today's automotive technicians. Suspensions is the focus of the first set of four tapes which introduces viewers to the basics of tires and wheels, shock absorbers and struts, plus front- and rear-suspensions. The second set of four tapes examines elements of the steering system, including: steering gears, steering columns and linkages, power steering pumps, and four-wheel alignment. In all tapes, actual automotive technicians, authentic automotive repair shops, and late-model vehicles are used to ensure that information is presented as realistically as possible.

Maker Comics is the ultimate DIY guide. Inside this graphic novel you'll find illustrated instructions for ten car repair activities! Lena, Mason, Abner, Rocky, and Esther only have one thing in common: They 're crazy about cars. A few of them already have their driver 's licenses. And even though Rocky and Esther are too young to drive, they still have a lot questions. In Car Club, Ms. Gritt has all the answers. When is the best time to check the oil? How do you change a tire? And why is Mason 's car making that squeaky noise? Before you get behind the wheel, learn what 's going on underneath the hood. Follow along as Ms. Gritt covers all the basics of preventative maintenance and roadside repairs. Colorful diagrams illustrate the inner

workings of complex parts and systems. With *Maker Comics: Fix a Car!* you can keep your automobile in tip-top shape! Follow the easy step-by-step instructions and you can:

- Create a portable tool kit
- Check the oil and fluid levels
- Maintain the battery
- Replace the windshield wipers
- Replace a drive belt or pulley
- Change the oil
- Change a flat tire
- Wash and detail a car (and add a racing stripe!)
- Change a taillight bulb
- Jump-start a car
