A Short History of a Small Place Jul 23 2020 Marvelously funny, bittersweet, and beautifully evocative, the original publication of *A Short History of a Small Place* announced the arrival of one of our great Southern voices. Although T. R. Pearson's Neely, North Carolina, doesn't appear on any map of the state, it has already earned a secure place on the literary landscape of the South. In this introduction to Neely, the young narrator, Louis Benfield, recounts the tragic last days of Miss Myra Angeliqne Pettigrew, a local spinster and former town belle who, after years of total seclusion, returns flamboyantly to public view-with her pet monkey, Mr. Britches. Here is a teeming human comedy inhabited by some of the most eccentric and endearing characters ever encountered in literature.

When She was Bad Feb 16 2020 While national crime rates have recently fallen, crimes committed by women have risen 200 percent, yet we continue to transform female violence into victimhood by citing PMS, battered wife syndrome, and postpartum depression as sources of women's actions. *When She Was Bad* convincingly overturns these perceptions by telling the stories of such women as Karla Faye Tucker, who was recently executed for having killed two people with a pickax; Dorothea Puente, who murdered several elderly tenants in her boarding house; and Aileen Wuornos, a Florida woman who shot seven men. Patricia Pearson marshals a vast amount of research and statistical support from criminologists, anthropologists, psychiatrists, and sociologists, and includes many revealing interviews with dozens of men and women in the criminal justice system who have

firsthand experience with violent women. *When She Was Bad* is a fearless and superbly written call to reframe our ideas about female violence and, by extension, female power.

How Hard Can It Be? Jan 29 2021 Look, I was doing OK. I got through the oil spill on the road that is turning forty. Lost a little control, but I drove into the skid just like the driving instructors tell you to and afterwards things were fine again, no, really, they were better than fine. Kate Reddy had it all: a nice home, two adorable kids, a good husband. Then her kids became teenagers (read: monsters). Richard, her husband, quit his job, taking up bicycling and therapeutic counseling: drinking green potions, dressing head to toe in Lycra, and spending his time—and their money—on his own therapy. Since Richard no longer sees a regular income as part of the path to enlightenment, it's left to Kate to go back to work. Companies aren't necessarily keen on hiring 49-year-old mothers, so Kate does what she must: knocks a few years off her age, hires a trainer, joins a Women Returners group, and prepares a new resume that has a shot at a literary prize for

experimental fiction. When Kate manages to secure a job at the very hedge fund she founded, she finds herself in an impossible juggling act: proving herself (again) at work, dealing with teen drama, and trying to look after increasingly frail parents as the clock keeps ticking toward her 50th birthday. Then, of course, an old flame shows up out of the blue, and Kate finds herself facing off with everyone from Russian mobsters to a literal stallion. Surely it will all work out in the end. After all, how hard can it be? Hilarious and poignant, *How Hard Can It Be?* brings us the new adventures of Kate Reddy, the beleaguered heroine of Allison Pearson's groundbreaking New York Times bestseller *I Don't Know How She Does It*.

The Eagles of Heart Mountain Sep 05 2021 “One of Ten Best History Books of 2021.” —Smithsonian Magazine For fans of *The Boys in the Boat* and *The Storm on Our Shores*, this impeccably researched, deeply moving, never-before-told “tale that ultimately stands as a testament to the resilience of the human spirit” (Garrett M. Graff, New York Times bestselling author) about a World War II incarceration camp in Wyoming and its extraordinary high school football team. In the spring of 1942, the United States government forced 120,000 Japanese Americans from their homes in California, Oregon, Washington, and Arizona and sent them to incarceration camps across the West. Nearly 14,000 of them landed on the outskirts of Cody, Wyoming, at the base of Heart Mountain. Behind barbed wire fences, they faced racism, cruelty, and frozen winters. Trying to recreate comforts from home, they established Buddhist temples and sumo wrestling pits. Kabuki performances drew hundreds of spectators—yet there was little hope. That is, until the fall of 1943, when the camp’s high school football team, the Eagles, started its first season and finished it undefeated, crushing the competition from nearby, predominantly white high schools. Amid all this excitement, American politics continued to disrupt their lives as the federal government drafted men

from the camps for the front lines—including some of the Eagles. As the team’s second season kicked off, the young men faced a choice to either join the Army or resist the draft. Teammates were divided, and some were jailed for their decisions. The Eagles of Heart Mountain honors the resilience of extraordinary heroes and the power of sports in a “timely and utterly absorbing account of a country losing its moral way, and a group of its young citizens who never did” (Evan Ratliff, author of *The Mastermind*).

Managerial Economics and Strategy Dec 28 2020 Intended primarily for Managerial Economics courses, this text also provides practical content to current and aspiring industry professionals. Economics is a powerful tool that can help managers to manage effectively. In *Managerial Economics* Jeffrey Perloff and James Brander use real-world issues and examples from actual markets to show future managers how economic principles can be used in business decisions. In text examples and boxed mini-cases use actual data to illustrate how to use basic models. For example, to illustrate rivalry in oligopolistic markets, the authors look at rivalry between United and American Airlines and between Coke and Pepsi. Mini-case examples include why American Apparel is vertically integrated and why upscale manufacturers limit the number of designer hand-bags a customer is allowed to buy. To help future managers learn to solve new problems, Perloff and Brander repeatedly demonstrate problem-solving through in-text Q&As. Each Q&A poses an important managerial or economic issue and demonstrates how to solve it using a step-by-step approach.
