When the Earth's rotation slowed to a crawl mankind was plunged into a harsh world of burning hot days and endless, arctic nights. Some fled to the mountains for shelter. Others took to the seas, sailing forever in the perfect gold between the night and the day; a place known as the Seventh Hour. Liv was raised aboard a ship chasing the Seventh. She's never seen the night, never known true cold, and when a storm destroys her home she's on land for the first time in her life. She's alone, surrounded by strangers and perils she couldn't have imagined in her worst nightmares. Her only chance at survival is Grayson. He saved her. He's sworn to protect her. He hates her. Old grudges run deeper than the sea, and Liv and Gray will have to overcome them together to make it to morning. To survive the longest night. Understanding the risks involved in hiring new faculty is becoming increasingly important. In *Managing Risk in High-Stakes Faculty Employment Decisions* Julee T. Flood and Terry Leap critically examine the landscape of US institutions of higher learning and the legal and human resource management practices pertinent to college and university faculty members. To help minimize the potential pitfalls in the hiring and promotion processes, Flood and Leap suggest ways that risk management principles can be applied within the unique culture of academia. Claims of workplace harassment and discrimination, violation of free speech and other First Amendment rights, social movements decrying unequal hiring practices, and the growing number of non-tenure track and adjunct faculty, require those involved in hiring and promotion decisions to be more knowledgeable about contract law, best practices in hiring, and risk management, yet many newly appointed administrators are often not sufficiently trained in these matters or in understanding how they might be applied in an academic setting. Human resource departments, hiring committees, department chairs, and academics seeking faculty jobs need resources such as *Managing Risk in High-Stakes Faculty Employment Decisions* now more than ever. Outlines critical issues affecting U.S. higher education Analyzes the social and psychological biases that can arise during hiring, promotion, and tenure decisions Discusses contract and constitutional law from the perspective of institutions of higher learning Illustrates complex interactions that shape contractual, constitutional, and collegial issues in institutions of higher learning Examines contract rights and controversies for tenured and tenure-track faculty Describes how risk management processes can help to deal with these complicated, but critical, issues Addresses constitutional issues associated with academic freedom and free speech on campus Investigates the nebulous, but important, issue of collegiality Discusses the future for institutions of higher learning in hiring faculty From the standpoint of practising engineers, architects and contractors, the law of contract is the most important one and, from preparation of technical documents to its execution and in the determination of disputes, the engineer or architect must have relevant knowledge. This book acts as a practical guide to building and engineering contracts. All points are explained with illustrations gathered from decided court cases. This book covers the substantive law of contract applicable to building and engineering contracts with updated noteworthy judgments. FIDIC conditions are mentioned at appropriate places with a global focus. Key Features: Guide for a full and thorough understanding of the contractual undertakings of the civil engineering industry, primarily in India Discusses specific conditions which are fertile sources of disputes, referring to and commenting upon the FIDIC conditions Covers internationally adopted standard form conditions of contract with analysis, discussions and interpretations, with decided court cases from India and abroad Focuses on technical civil engineering aspects Addresses cases from countries including UK, US, Canada, Australia, New Zealand and India For more than 30 years, Robinson on North Carolina Corporation Law has been the authoritative reference on corporation law in North Carolina. Updated with complete coverage of the new laws affecting corporations in North Carolina, the Seventh Edition maintains the style, reliability, and comprehensiveness of the earlier editions. It provides complete coverage of significant case law developments, placing a special emphasis on corporate control and governance. Geriatric Nutrition, Geriatrics and End of Life Care, Entrepreneur Investment Meet, Palliative Care and Nursing, Dentist on the Ward is for students and recently qualified dentists working in hospital departments of Oral and Maxillofacial Surgery for the first time. It simplifies the essential surgical and medical knowledge needed for hospital work and provides the basic knowledge of medical subjects that any dentist will need for non-specialist examinations. Winner of BEST HORROR NOVEL (August Derleth Award) at British Fantasy Awards 2016 She comes in the night. She looks into your eyes. One by one, she has taken us all. For generations they have died young, and now fifteen-year-old Iris and her father are the last of the Villarca line. Confined to their lonely mansion on Dartmoor, they suffer their disease in isolation. But Iris breaks her promise to hide from the world and dares to fall in love. It is only then that they understand the true horror of the Villarca curse, the curse of the bone-white woman who visits in the night, leaving death in her wake. 'With a ghostly face at the window, inexplicable events and a sense of menace hanging over every page, this is one chilling gothic novel' Daily Mail From New York Times bestselling and award-winning author Jewell Parker Rhodes comes a heartbreaking and uplifting tale of survival in the face of Hurricane Katrina. Twelve-year-old Lanesha lives in a tight-knit community in New Orleans' Ninth Ward. She doesn't have a fancy house like her uptown family or lots of friends like the other kids on her street. But what she does have is Mama Ya-Ya, her fiercely loving caretaker, wise in the ways of the world and able to predict the future. So when Mama Ya-Ya's visions show a powerful hurricane--Katrina--fast approaching, it's up to Lanesha to call upon the hope and strength Mama Ya-Ya has given her to help them both survive the storm. From the New York Times bestselling author of Ghost Boys and Towers Falling, Ninth Ward is a deeply emotional story about transformation and a celebration of resilience, friendship, and family--as only love can define it. Stuttering and Cluttering provides a comprehensive overview of both theoretical and treatment aspects of disorders of fluency: stuttering (also known as stammering) and the lesser-known cluttering. The book demonstrates how treatment strategies relate to the various theories as to why stuttering and cluttering arise, and how they develop. Uniquely, it outlines the major approaches to treatment alongside alternative methods, including drug treatment and recent auditory feedback procedures. Part one looks at different perspectives on causation and development, emphasizing that in many cases these apparently different approaches are inextricably intertwined. Part two covers the assessment, diagnosis, treatment, and evaluation of stuttering and cluttering. In addition to chapters on established approaches, there are sections on alternative therapies, including drug therapy, and auditory feedback, together with a chapter on counselling. Reference is made to a number of established treatment programs, but the focus is on the more detailed description of specific landmark approaches. These provide a framework from which the reader may not only understand others' treatment procedures, but also a perspective from which they can develop their own. Offering a clear, accessible and comprehensive account of both the theoretical underpinning of stammering therapy and its practical implications, the book will be of interest to speech language therapy students, as well as qualified therapists, psychologists, and to those who stutter and clutter.
